ABOUT US

Hundreds of trusted and specified products which have been applied over thousands of both domestic and overseas projects in conjunction with numerous partners.

Based in the UK, we offer an unparalleled range of reliable sealing solutions for roofing, cladding, coldstore, and facade projects, whatever the size. From extensive commercial jobs to home DIY, our premier products and knowledgeable team are here to answer all your sealing needs.

ACCREDITATIONS

Here at Sealprem, we are extremely proud of our commitment to partnerships, industry bodies and certified approvals - it's what makes us the industry leaders in high quality core sealing and building products. If you are looking to source products and technical advice that meet your exacting standards, make sure it's a Sealprem product, supported by our extensive background in the building industry.

Trusted within the industry

Manufactured in the UK

Superior Manufacturing
Technology and Capabilities.
Including unique water jet
cutting for precision cut profiled
foam fillers.

Providing peace of mind

As a member of the MCRMA, NFRC and the CEBA (UK), we are a trusted partner for contractors and manufacturers alike for supply and technical advice.

Industry Experts

We have a successful and long history of supporting contractors and manufacturers who design, build, and maintain building facilities for a variety of construction sectors.

Our technology

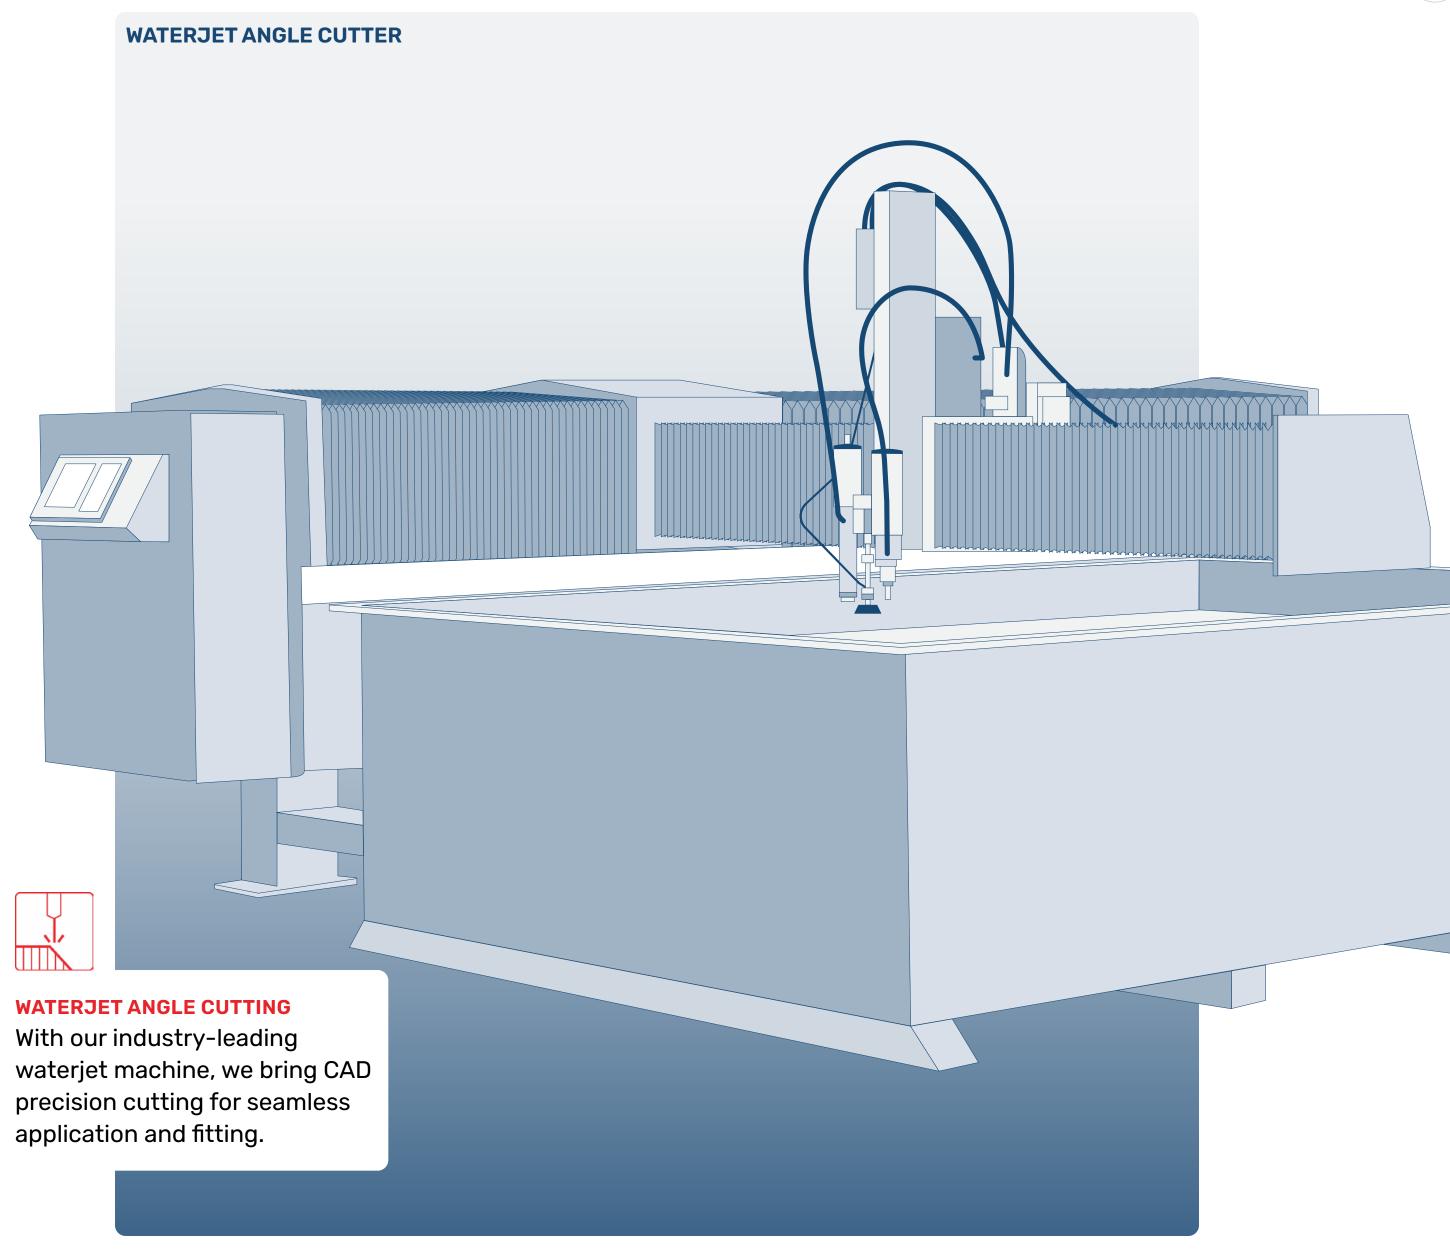

The latest in angle-cutting technology, this machine gives us a faster, more accurate and efficient way of cutting angle-cut fillers.

Using CAD technology means that customers can send us their designs which can be input directly to the machine saving time on drawing and design and enabling us to create completely bespoke designs. The use of the water jet machine also ensures a more stable, cleaner and precise finish creating less waste and maximising yields through using efficient techniques.

"FK Group have seen Sealprem as valued industry partners for 15 years and have worked with them on numerous large and prestigious projects during that time, relying on their technical expertise, quality array of products and service to ensure that works are completed on time and within budget.

Alistair Bolton,

Construction Procurement Director, FK Group

OUR TEAM

Experts with a drive for innovation

Since 1994, our aim has been to provide the best products and solutions to the market through our dedication, passion and commitment to service, quality and knowledge.

Over those past 30 years, we have collaborated with major industry players from designers and architects through to contractors and installers, constantly evolving our service based on customer feedback. It's our people that make us what we are, contact one of the team to discuss what we can do for you.

Service

We pride ourselves on providing a timely and responsive personal service whilst meeting or exceeding our customers' expectations.

Quality

Our reputation for quality precedes us. We pride ourselves on maintaining our ISO 9001 accreditation year on year.

Knowledge

With over 100 years' experience, Sealprem leads the way in market and product knowledge.

"We have worked with Premier Sealants for many years now. A very good company that delivers top quality products and provides excellent service"

Sarah Mapes,

Procurement Manager, Hathaway Roofing

OUR SERVICE CHARTER

Industry best lead times

At Sealprem, we understand that in today's fast-paced market, time is critical. That's why we've built our operations around delivering excellence with speed, ensuring your orders—big or small—are completed on time, every time.

Why Choose Sealprem?

→ Best-In-Class Lead Times

We've streamlined every step of our process to provide industry-best lead times. From initial order to final delivery, our team ensures precision and speed without compromising on quality.

→ Flexible Order Sizes

Whether you need a small batch or a large-scale order, we've got you covered. Our production capabilities are designed to handle orders of all sizes with the same efficiency and care.

→ Reliable Quick Turnaround

Got a tight deadline? Sealprem specialise in meeting urgent demands. With robust logistics and efficient workflows, we deliver when it matters most.

→ Consistent Quality Assurance

Speed means nothing without reliability. Every order undergoes rigorous quality checks, so you can trust that fast delivery never sacrifices excellence.

International reach

Sealprem know that our products are in demand and specified across the globe by designers and contractors alike. That's why our delivery service reaches way beyond the UK and Ireland, we've made deliveries as far afield as Vietnam, Iceland and the Middle East - on time and in full. Please contact a member of the Sealprem sales team to discuss your requirements and your personalised quotation.

Deliving quality from our manufacturing plant to anywhere in the world.

VIEW CONTACTS >

PLEASE NOTE

Any date changes or amendments to orders must be received by us prior to 2pm on the day before the date of despatch. Any amendments after this time will not be actioned. Storage charges may also be incurred for any orders returned to us that are then required to be dispatched at a later date.

We will endeavour where possible to ensure that customer delivery dates are met but must advise that dates or times advised by Sealprem in advance are made in good faith. In accordance with our Terms & Conditions of sale, Sealprem shall be under no liability whatsoever for any loss whether direct or indirect resulting from delays in dispatch, delivery or non-performance of any contractual obligation due to any cause beyond its control.

Where a delivery time is essential to you, we may have to hire a dedicated vehicle for you. Our sales team will be able to give details of any costs associated with this.

SUSTAINABILITY PROMISE

Commitment to Continuous Improvement

We endeavor continuous improvement in reviewing our practices, evaluating supply chains, implementing better waste management, and offering more sustainable quality products.

Our vision

At Sealprem, we believe in giving, not just taking, and this is what drives our business towards a more sustainable future. But we know true sustainability isn't achieved overnight. That's why we're committed to continuous improvement, reviewing our practices, evaluating supply chains, implementing better waste management, and offering more sustainable quality products on an ongoing basis.

We put in significant effort to integrate sustainable practices across our operations, including reducing our carbon footprint and promoting fair labour practices. This recognition inspires us to keep pushing for sustainability excellence and making a difference in the world.

Our approach

For us, sustainability falls within three pillars: Environmental, Social, and Economic. This means, while working hard to reduce any potential negative environmental impact, we're also busy focusing on our social responsibility, as well as using corporate governance principles to plan our economy.

Our strategy

By engaging and educating our team around sustainability, we can deliver more sustainable solutions to our customers, reduce the environmental impact of our operations, and demonstrate good social responsibility and governance for our employees, communities, and all of our stakeholders.

We are taking proactive steps towards achieving net-zero emissions and enhancing our environmental performance. Our sustainability strategy is to measure our current emissions and with Planet Mark's guidance set an effective and achievable plan to become Net Zero by 2050.

Packaging

All of our packaging is made with 100% recycled materials

Supply chains

We evaluate and seek out supply partners that share our Sustainability ambitions

Our manufacturing process

Efficient manufacturing of our product range

Repurposed waste

Via our recycle partner, our waste is repurposed as a source material for other industries materials

OUR SUSTAINABILITY MODEL

OUR SECTORS

Delivering excellence in every seal

For contractors requiring high performance sealing solutions in the metal roofing & cladding sectors.

Premium choice

Our range of core sealant products, including profiled foam fillers, butyl strip sealants, cartridge sealants, foam tapes and fire-related products are the number 1 choice for contractors and manufacturers.

Leading supplier

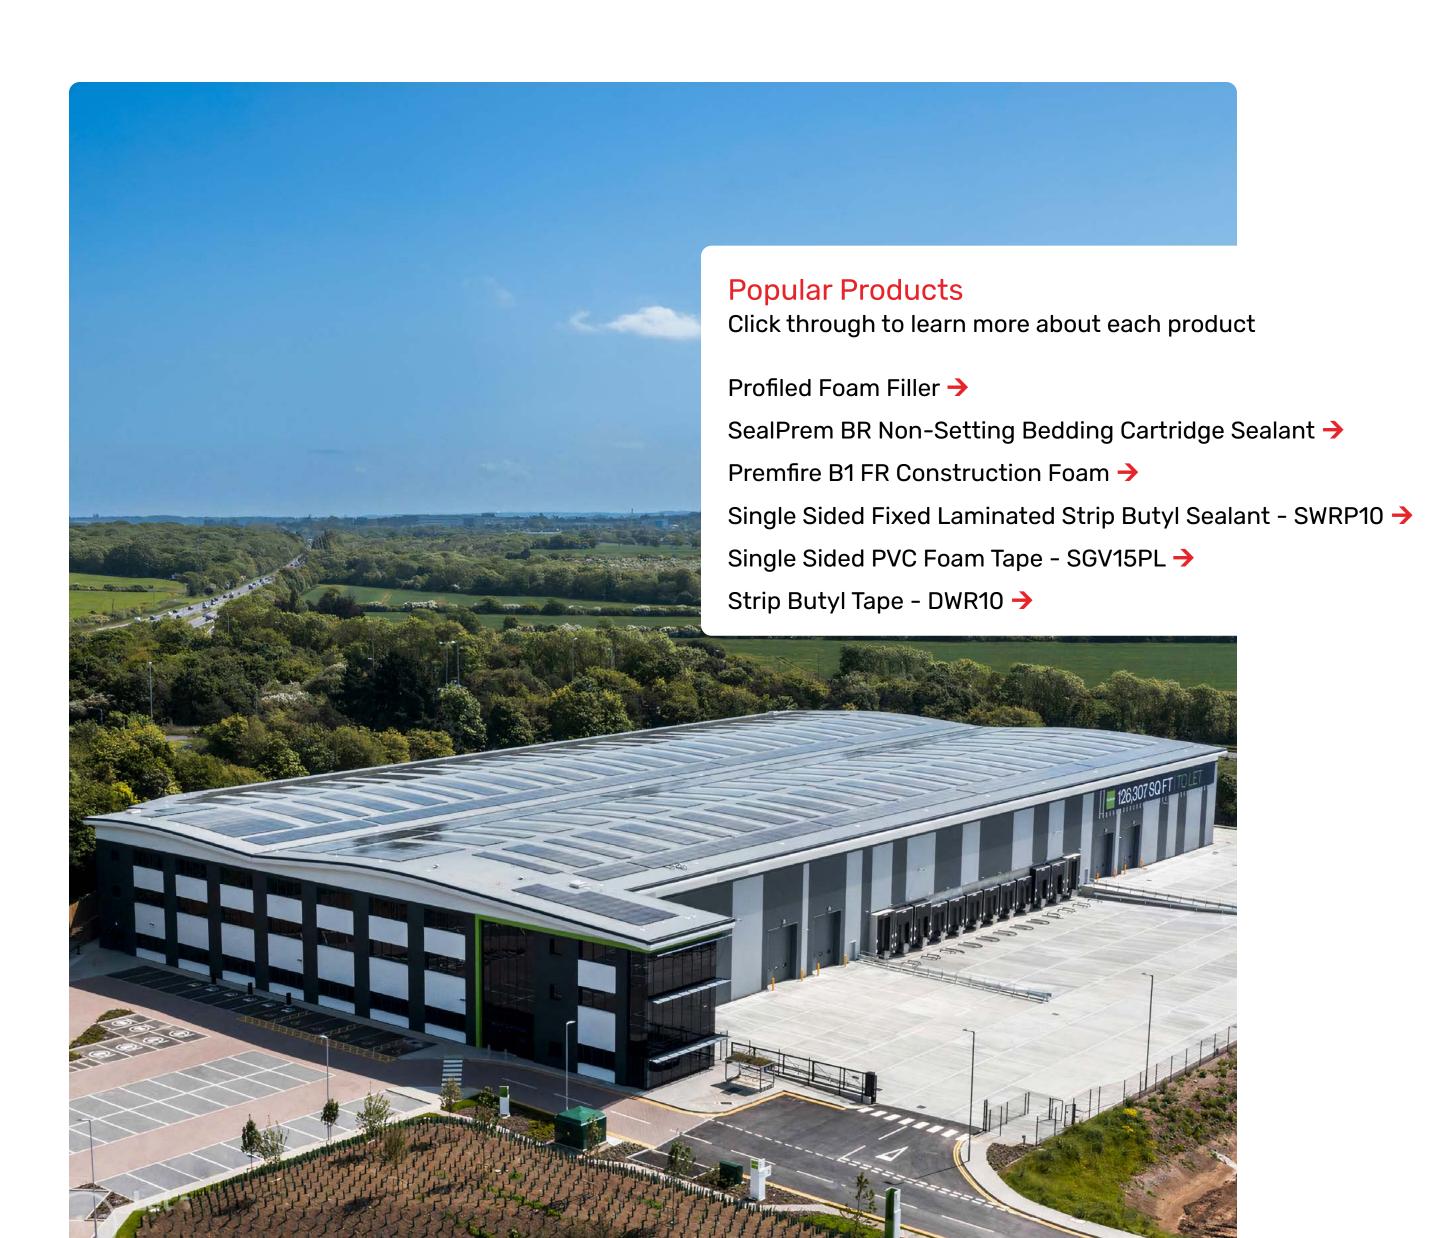

For contractors requiring high performance sealing solutions in the Coldstore, Foodstore, Chiller and Freezer sectors.

Premium choice

Our range of core sealant products, including profiled foam fillers, butyl strip sealants, cartridge sealants, foam tapes and firerelated products are the number 1 choice for contractors and manufacturers.

Leading supplier

Committee Member

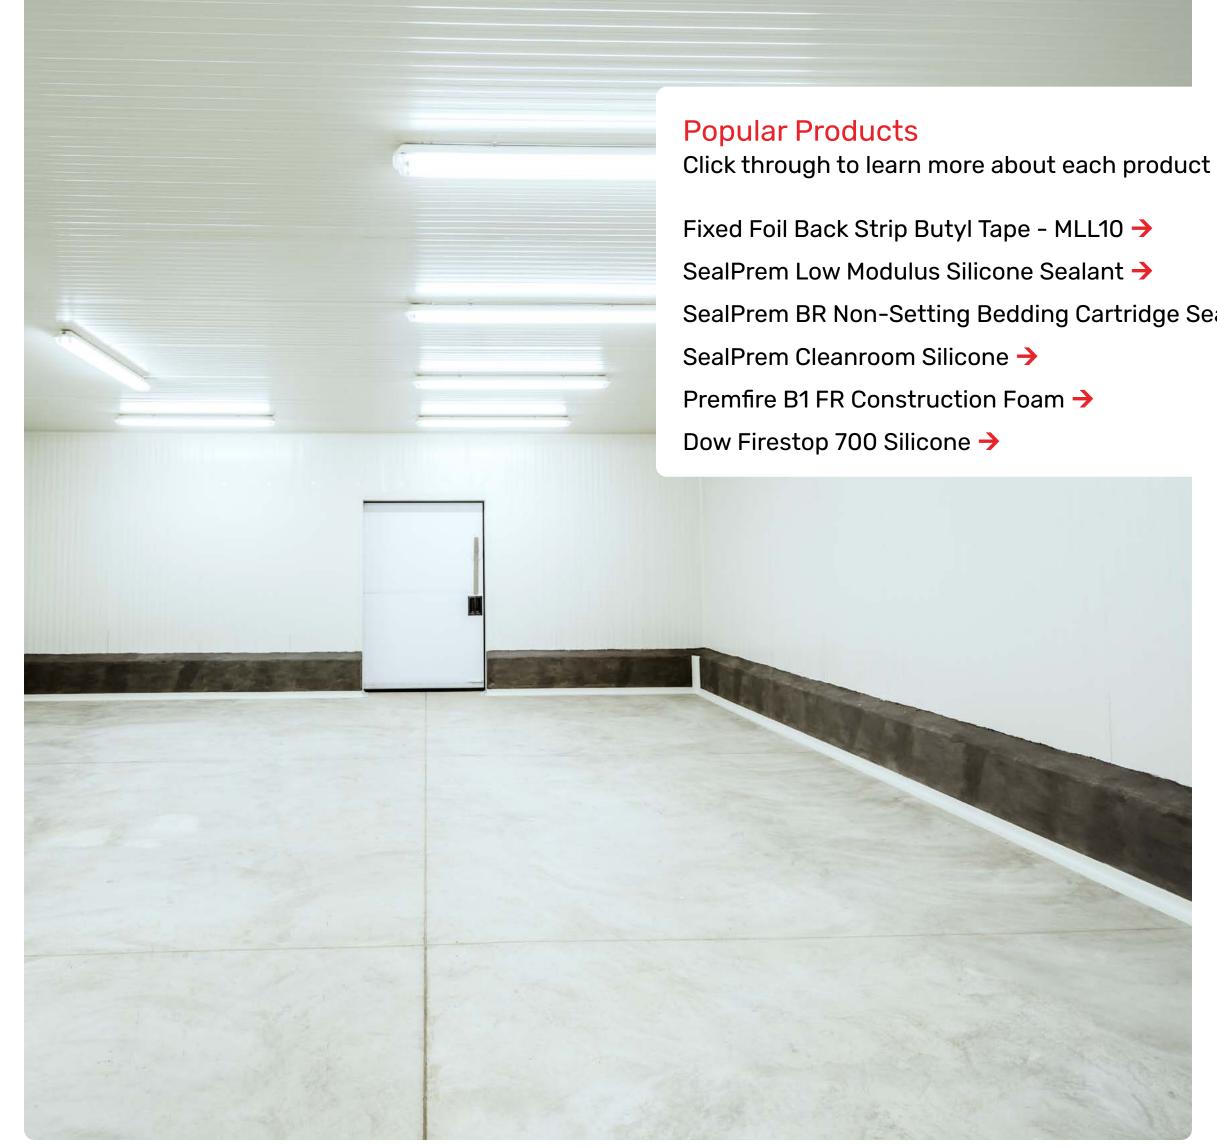

SealPrem BR Non-Setting Bedding Cartridge Sealant →

Facades & Rainscreen

For contractors requiring high performance EPDM's, Breather Membranes, Vapor Control Layers and associated products, that guarantee sustained integrity and shielding against weather elements.

Premium choice

Our range of core sealant products, including profiled foam fillers, butyl strip sealants, cartridge sealants, foam tapes and firerelated products are the number 1 choice for contractors and manufacturers.

Leading supplier

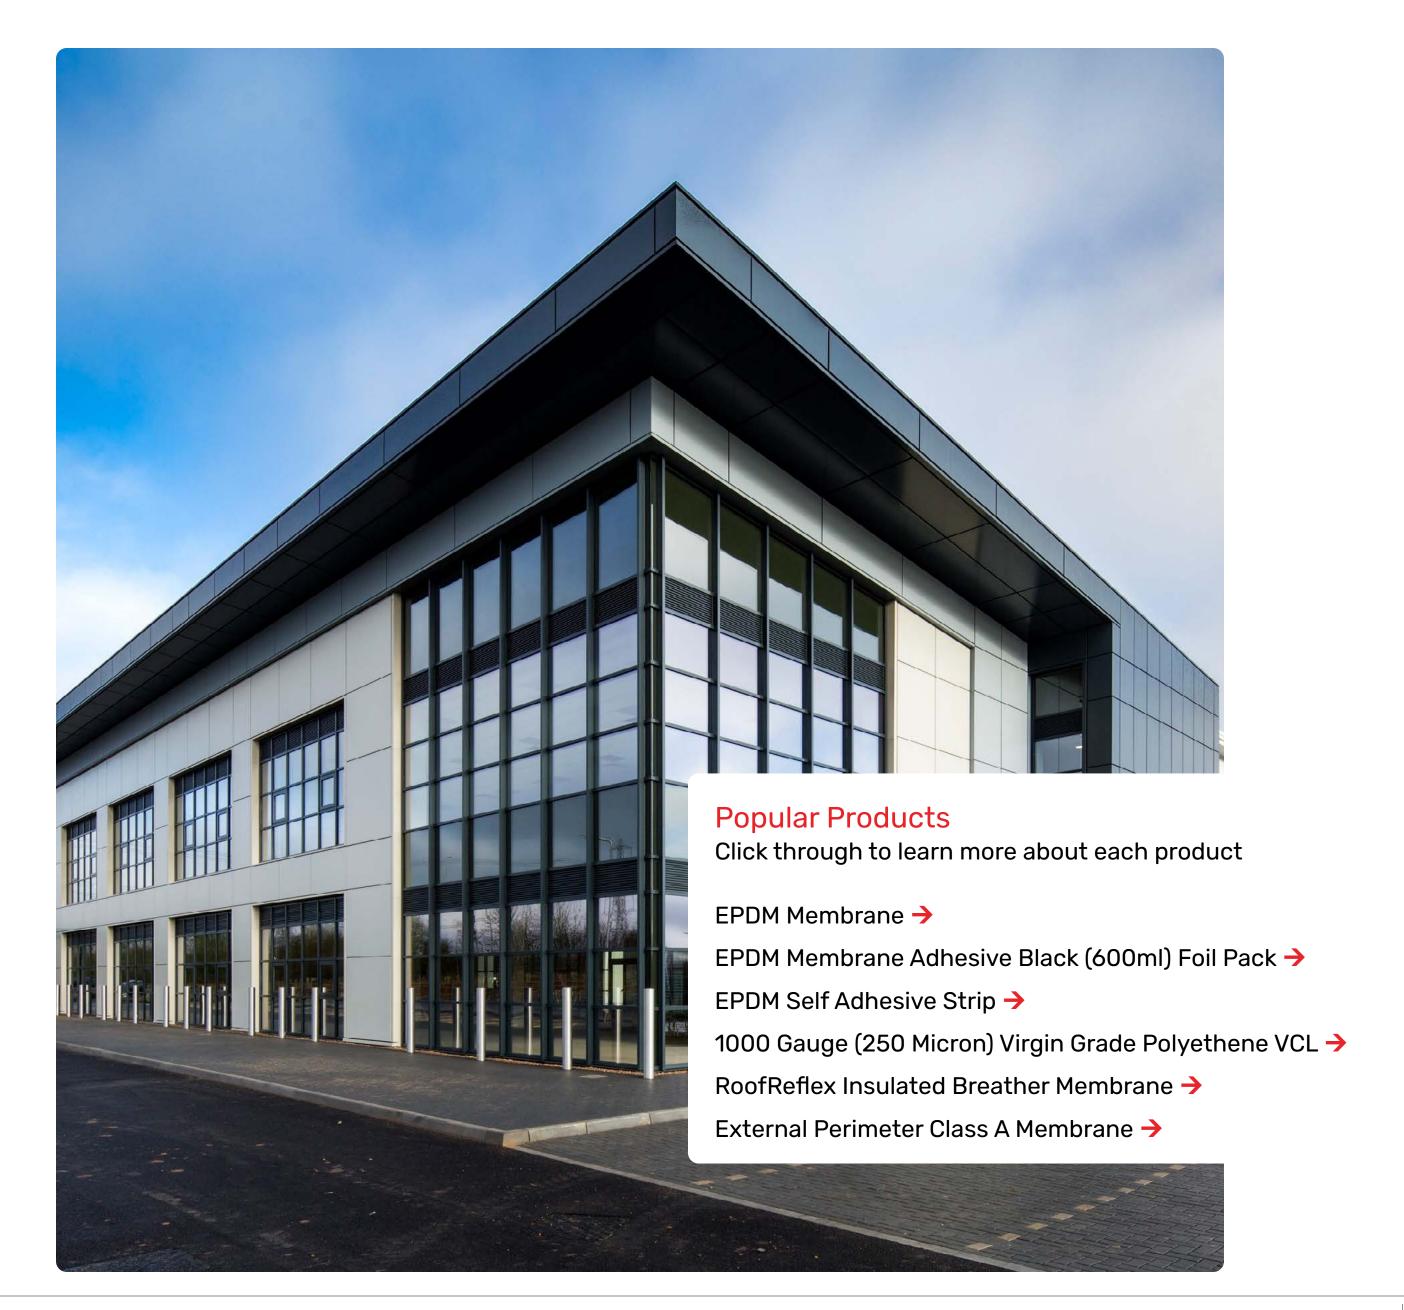

Ideal for contractors who require products to assist in controlling the temperature, humidity, and movement of air throughout a building or indoor space.

Premium choice

PRODUCT OVERVIEW

Delivering quality through every product

"BHC Ltd have used Sealprem for the past 4 years and have been extremely impressed with their product range and customer service."

Robert Geurts,

Technical Manager, BHC Ltd

PRODUCT

Foam Fillers

Designed to seal roofing and cladding profiles against dust, air, nesting animals, and water ingress, our profiled foam fillers are approved by the UK's leading cladding manufacturers: Kingspan, TATA, CA Group, and Euroclad.

Product features:

WIDE RANGE

All of our profiled foam fillers are available in a variety of materials, thicknesses and colours, and can made to measure if required.

MADE TO MEASURE SERVICE

We offer a custom made to measure service to help you to find the right fit for your project.

WATERJET ANGLE CUTTING

With our industry-leading waterjet machine, we bring CAD precision cutting for seamless application and fitting.

Applications:

Designed to seal roofing and cladding profiles against dust, air, nesting animals, and water ingress, our Profiled Foam Fillers are designed to seal gaps such as:

- → Eaves and ridges
- → Hips and valleys
- → Rooflights

PRODUCT

Butyl Strip Sealants

Butyl Strip Sealants are strong, adhesive tape-style sealants. While most butyl strip sealants are made with additives to reduce costs, Sealprem use 100% PIB for superior elasticity. Our PIB strip sealants are approved by Kingspan, TATA, CA Group, and Euroclad.

Product features:

- → Double-sided or single-sided seal against water, air, and dust
- Pressure-sensitive for sealing door & window frames and membranes
- → Rectangular or bead form perfect for end and side lap seals
- a liner strip, making it quick and easy to apply it right first time

Applications:

Butyl Strip Sealants are highly versatile and can be used for a variety of applications, such as;

- → Sealing against water, air and dust
- Sealing door and window frames and membranes
- → Repairing and over-sealing guttering
- → Vapor sealing on cold store panels
- → End and side lap seals

PRODUCT

Self Adhesive Cellular Foams

Narrow foam tapes with either one or two adhesive sides. All of our Self-Adhesive Cellular Foams are made with acrylic as the main adhesive material, slit to your required width, and are packaged in a roll with a liner strip, making them easy to apply and store.

Product features:

- → Excellent adherence to most substrates
- → Wide variety of self-adhesive cellular foams available for a wide range of uses
- → Available in a range of cuts and colours for any job

Applications:

We supply a wide range of Self-Adhesive Cellular Foams suitable for a whole host of applications.

- Open Cell –
 for a softer, more flexible result
- Closed Cell for stronger sealing against moisture and better insulation
- → Made to Order any way you need Self-Adhesive Cellular foam, we provide a range of cut styles!

PRODUCT

Cartridge & Foil Sealants and Adhesives

Cartridge Sealants are gun-applied liquid sealants, usually made of either silicone, ms polymer, or polyurethane, and packaged in a cartridge, making them easy to use and store.

Applications:

- → Silicones adhere perfectly to non-porous surfaces
- → Bedding Sealants our Sealprem BR non-setting line provides low joint movement sealing
- → Sealants & Adhesives adhere to most substrates, perfect for both interior and exterior jobs

PRODUCT

Canister Foams

Our range of canister expanding foams and adhesives are all supplied in 'blue steel metal'. This material provides us with the ability to provide quality materials within a more sustainable package.

Applications:

Typical applications covered within our range provide both excellent fire performance and insulating capabilities.

- → Sealing of joints in fire rated walls, doors, windows and more
- → Sealing and joining of pressure sensitive joints
- → Fixing of insulation and design boards whilst reducing thermal bridges
- → Sound insulation of buildings, vessels and uneven surfaces

PRODUCT

EPDM Membranes and Associated Products

Utilising the exceptional properties of EPDM (Ethylene Propylene Diene Monomer), a type of synthetic rubber that help to preserve the aesthetic appeal of your building whilst ensuring its longevity.

Product features:

- → Solvent-free adhesive
- → Robust durability and flexibility
- Withstand ultraviolet radiation and the harshest of weather conditions
- → Optimal choice for outdoor applications

Applications:

→ High-quality solution for sealing gaps in lightweight facades

LEARN MORE >

LEARN MORE >

PRODUCT

Other Membranes and Associated Products

Our extensive range of materials covers not only the varying forms of membranes, but the associated products, to provide you a complete solution based provider of quality materials for the varying applications within this sector.

Applications:

With our VCL, standard and Fire rated breather membranes, associated lap tapes and expanding foam tapes we have cover a wide spectrum of applications.

- → Air leakage barrier for roofs, walls, and floor
- Windproof and waterproof outer layers for sheds, cabins home offices and more
- → Insulated wall breather and pithed roof membrane standard and fire rated
- → Radon, Carbon Dioxide and methane gas barrier

PRODUCT

Ancillary Products

Our ancillary product range is designed to complement and enhance your building and sealing solutions.

Range:

Offering a comprehensive range of:

- → High quality tapes
- → Building papers
- → Gaskets
- → Insulation pins
- → Applicator guns

PRODUCT

Fire Rated Products

Sealprem's fire rated products provide superior protection and performance in high risk environments, meeting stringent safety standards. Engineered for reliability, these solutions ensure robust fire resistance while maintaining the integrity of sealing systems offering peace of mind in critical applications.

PRODUCT

Class A

The new ARBOShield Pro system delivers unmatched performance. With Class A reaction to fire and unbeatable W1 water resistance, ARBOShield Pro delivers the highest level of protection against fire and the elements.

Product features:

- → Fire-rated membranes
- → Self-adhesive EPAM perimeter seals

Applications:

ARBOShield Pro has a flexible and wide range of applications.

- → Commercial, industrial, residential, and retail environments
- → From curtain walling to off-site construction
