

## Cloth Tape

### 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

#### 1.1. Product Name/Identifier

Cloth Tape.

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Sealant, tape.

#### 1.3. Details of the supplier of the safety data sheet

Premier Sealant Systems Ltd.  
Mercia Way,  
Foxhills Industrial Park,  
Scunthorpe,  
North Lincolnshire,  
DN15 8RE  
Tel. 01724 864 100

#### 1.4. Emergency telephone number

NPIS (National Poisons Information Service): 0344 892 0111 (for medical professionals only). For medical advice, members of the public should contact NHS 111 in England: 111; NHS 24 in Scotland: 111; NHS Direct in Wales: 111 or 0845 4647. In Northern Ireland: contact your local GP or pharmacist. In Europe call 112.

### 2. HAZARDS IDENTIFICATION

#### 2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008, as retained and amended in UK law:  
Not a hazardous substance or mixture.

#### 2.2. Label elements

Labelling according to Regulation (EC) No 1272/2008, as retained and amended in UK law.  
Not a hazardous substance or mixture.

#### Hazard statements:

Not applicable.

**Precautionary statements:**

Not applicable.

**Supplemental label information**

Not applicable.

**2.3. Other hazards**

Not applicable.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

**3.1. Substances**

Not applicable.

**3.2. Mixtures**

Primary raw materials used in our tapes are paper and films such as polypropylene, polyester, glass fibre and synthetic non-woven cloths. Adhesives are formulated from thermoplastic rubbers, tackifying resins and additional components include silicones.

**Other information:**

For the full text of the H-Statements mentioned in this Section, see Section 16.

## 4. FIRST AID MEASURES

**4.1. Description of first aid measures****General information**

First Aid responders should pay attention to self-protection and use the recommended protective clothing (chemical resistant gloves, splash protection). If potential for exposure exists refer to Section 8 for specific personal protective equipment.

**Inhalation:**

Under normal circumstances should not occur, however, in event of burning material fumes inhalation, move person to fresh air and keep comfortable for breathing; consult a physician.

**Ingestion:**

If swallowed, seek medical attention. Do not induce vomiting unless directed to do so by medical personnel.

**Skin contact:**

Wash off with plenty of water.

**Eye contact:**

Under normal circumstances should not occur. If occurs, flush eyes thoroughly with water for several minutes. Remove contact lenses after the initial 1-2 minutes and continue flushing for several additional minutes. If effects occur, consult a physician, preferably an ophthalmologist.

**4.2. Most important symptoms and effects, both acute and delayed**

Aside from the information found under Description of first aid measures (above) and Indication of immediate medical attention and special treatment needed (below), any additional important symptoms and effects are described in Section 11: Toxicology Information.

## Notes for the doctor

No specific antidote. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient.

## Specific treatments

Treat symptomatically.

## 5. FIREFIGHTING MEASURES

### 5.1. Extinguishing media

#### Suitable extinguishing media

Alcohol-resistant foam. Carbon dioxide (CO<sub>2</sub>). Dry chemical. Water spray.

#### Unsuitable extinguishing media

None known.

### 5.2. Special hazards arising from the substance or mixture

#### Specific hazards

Our tapes are combustible in nature: therefore, it is important to ensure the absence of sources of ignition in transportation, handling and storage areas.

If tape the package burn, they will spread irritating fumes and smoke. A breathing apparatus should be used in controlling the fire. For small fires, any commonly available fire extinguisher may be used.

### 5.3. Advice for firefighters

Use water spray to cool unopened containers. Evacuate area. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Remove undamaged containers from fire area if it is safe to do so.

#### Special protective equipment for firefighters

Wear self-contained breathing apparatus for firefighting if necessary. Use personal protective equipment.

## 6. ACCIDENTAL RELEASE MEASURES

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Follow safe handling advice and personal protective equipment recommendations.

### 6.2. Environmental precautions

Discharge into the environment must be avoided. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.

## **Methods and material for containment and cleaning up**

Manually pick up material. Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable.

## **7. HANDLING AND STORAGE**

### **7.1. Precautions for safe handling**

#### **Usage precautions**

Avoid contact with eyes. Do not swallow. Take care to prevent waste and minimize release to the environment. Handle in accordance with good industrial hygiene and safety practice.

#### **Advice on general occupational hygiene**

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash their hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas.

### **7.2. Conditions for safe storage, including any incompatibilities**

#### **Storage precautions**

Keep in properly labelled containers. Store in accordance with the national regulations and manufacturer recommendations.

Do not store with the following product types: None known.

Unsuitable materials for containers: None known.

#### **Storage class**

Not classified.

### **7.3. Specific end use(s)**

Field of application of the product is described in Technical Data Sheet (TDS).

## **8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

### **8.1. Control parameters**

If exposure limits exist, they are listed below. If no exposure limits are displayed, then no values are applicable.

Although some of the components of this product may have exposure guidelines, no exposure would be expected under normal handling conditions due to the physical state of the material.

#### **Recommended monitoring procedures**

Not applicable.

## 8.2. Exposure controls

### Appropriate engineering controls

Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, general ventilation should be sufficient for most operations. Local exhaust ventilation may be necessary for some operations.

### Eye/face protection

Consider using based on general task performed.

### Hand protection

Consider using based on general task performed.

### Other skin and body protection

Consider using based on general task performed.

### Respiratory protection

Consider using based on general task performed.

### Hygiene measures

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

### Environmental exposure controls

Avoid releasing to environment.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### 9.1. Information on basic physical and chemical properties

Appearance	Roll of tape (solid)
Colour	Off-White
Odour	Not significant
Odour threshold	Not available
pH	Not available
Melting point	Not determined
Initial boiling point and range	Not available
Flash point	Closed cup >100 °C
Evaporation rate	No information available
Evaporation factor	No information available
Flammability (solid, gas)	Not classified as a flammability hazard
Upper/lower flammability or explosive limits	No information available
Vapour pressure at 20 °C	No information available
Vapour pressure at 50 °C	No information available
Vapour density	No information available

Premier Sealant Systems Ltd.

Mercia Way, Foxhills Industrial Park, Scunthorpe, DN15 8RE

Registered Office: Mercia Way, Foxhills Industrial Park, Scunthorpe, DN15 8RE | Registered in Cardiff No. 3000843

Density	Not determined
Relative density	Not determined
Solubility(ies)	Not soluble in water
Partition coefficient	No information available
Auto-ignition temperature	No information available
Decomposition temperature	No information available
Explosive properties	Not applicable
Oxidising properties	The substance or mixture is not classified as oxidizing

## 9.2. Other information

NOTE: The physical data presented above are typical values and should not be construed as a specification.

## 10. STABILITY AND REACTIVITY

### 10.1. Reactivity

Not classified as a reactivity hazard. See section 7.

### 10.2. Chemical stability

Chemically stable under the indicated conditions of storage, handling and use.

### 10.3. Possibility of hazardous reactions

None known.

### 10.4. Conditions to avoid

None known.

### 10.5. Incompatible materials

None known.

### 10.6. Hazardous decomposition products

Decomposition products can include and are not limited to: smoke, fumes.

## 11. TOXICOLOGICAL INFORMATION

### 11.1. Information on toxicological effects

#### Acute toxicity (Acute oral toxicity)

Not determined.

#### Acute toxicity (Acute dermal toxicity)

Not determined.

#### Acute toxicity (Acute inhalation toxicity)

Not determined.

#### Skin Corrosion/Irritation

Not determined.

# Safety Data Sheet

## **Serious Eye Damage/Irritation**

Not determined.

## **Respiratory or Skin Sensitisation**

Not determined.

## **Germ Cell Mutagenicity**

Not determined.

## **Carcinogenicity**

Not determined.

## **Reproductive Toxicity**

Not determined.

## **Specific target organ toxicity (single exposure)**

Not determined.

## **Specific target organ toxicity (repeated exposure)**

Not determined.

## **Aspiration Hazard**

Not determined.

## 12. ECOLOGICAL INFORMATION

### **12.1. Toxicity**

Not determined.

### **12.2. Persistence and degradability**

Not determined.

### **12.3. Bioaccumulative potential**

Not determined.

### **12.4. Mobility in soil**

Not determined.

### **12.1. Results of PBT and vPvB assessment**

Not determined.

### **12.2. Other adverse effects**

Not determined.

## 13. DISPOSAL CONSIDERATIONS

### 13.1. Waste treatment methods

Do not dump into any sewers, on the ground, or into any body of water. Product can be burned as non-toxic wastes or incineration in regulated equipment (like pyrolysis furnace). Any disposal practices must be in compliance with all national and provincial laws and any municipal or local by-laws governing hazardous waste.

### Disposal methods

Dispose of in accordance with local regulations.

### 13.2. Waste class

EWC code will depend on the use that is made of this material. Contact the authorized waste disposal services.

## 14. TRANSPORT INFORMATION

### 14.1. Classification for ROAD and Rail transport (ADR/RID)

Non-applicable.

### 14.2. Transport by sea GGVSee/IMDG-Code

Non-applicable.

### 14.3. Air Transport ICAO-TI/IATA-DGR

Non-applicable.

## 15. REGULATORY INFORMATION

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### UK REACH - UK Statutory Instruments 2019 No.758 as amended

This product contains only components that have been either registered, notified for downstream user import (DUIN), are exempt from registration, are regarded as registered or are not subject to registration according to UK Statutory Instruments 2019 No.758 as amended (UK REACH). Polymers are exempted from registration under REACH. All relevant starting materials and additives have been registered, notified for downstream user import (DUIN) or are exempt from registration according to UK Statutory Instruments 2019 No.758 as amended (UK REACH). The aforementioned indications of the UK REACH registration status are provided in good faith and believed to be accurate as of the effective date shown above. However, no warranty, expressed or implied, is given. It is the buyer's/user's responsibility to ensure that his/her understanding of the regulatory status of this product is correct.

#### The Control of Major Accident Hazards Regulations 2015:

Listed in Regulation: Not applicable.

# Safety Data Sheet

## Other legislation

Take note of The Management of Health and Safety at Work Regulations 1999 (requirements relating to new and expectant mothers at work contained in Regulation 16 to 18) and of the Pregnant Workers Directive 92/85/EEC.

Take note of The Management of Health and Safety at Work Regulations 1999 (requirements relating to protection of young people at work contained in Regulation 19) and of Directive 94/33/EC on the protection of young people at work.

## 15.2. Chemical safety assessment

No Chemical Safety Assessment has been carried out for this substance/mixture.

## 16. OTHER INFORMATION

### Full text of H-Statements referred to under sections 2 and 3:

Not applicable.

### Classification and procedure used to derive the classification for mixtures according to Regulation (EC) No 1272/2008

This product is not classified as dangerous according to EC criteria.

### Key literature references and sources for data

This SDS is prepared by Product Regulatory Services and Hazard Communications Groups from information supplied by internal references within our company.

### Legend

ACGIH	USA. ACGIH Threshold Limit Values (TLV)
Dow IHG	Dow Industrial Hygiene Guideline
GB EH40	UK. EH40 WEL - Workplace Exposure Limits
STEL	Short term exposure limit
TWA	Time weighted average
US WEEL	USA. Workplace Environmental Exposure Levels (WEEL)
Acute Tox.	Acute toxicity
Aquatic Acute	Short-term (acute) aquatic hazard
Aquatic Chronic	Long-term (chronic) aquatic hazard
Carc.	Carcinogenicity
Eye Dam.	Serious eye damage
Flam. Liq	Flammable liquids
Repr.	Reproductive toxicity
Skin Sens.	Skin sensitisation
