

## DGR30 Butyl Tape

### 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

#### 1.1. Product Name/Identifier

DGR30 Butyl tape

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Compression sealant.  
For professional users only.

#### 1.3. Details of the supplier of the safety data sheet

Premier Sealant Systems Ltd.  
Mercia Way,  
Foxhills Industrial Park,  
Scunthorpe,  
North Lincolnshire,  
DN15 8RE  
Tel. 01724 864 100

#### 1.4. Emergency telephone number

NPIS (National Poisons Information Service): 0344 892 0111 (for medical professionals only). For medical advice, members of the public should contact NHS 111 in England: 111; NHS 24 in Scotland: 111; NHS Direct in Wales: 111 or 0845 4647. In Northern Ireland: contact your local GP or pharmacist. In Europe call 112.

### 2. HAZARDS IDENTIFICATION

#### 2.1. Classification of the substance or mixture

**Classification according to UK CLP/GHS**  
Non-Hazardous

#### 2.2. Label elements

Not applicable.

## 2.3. Other hazards

None known.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

### 3.1. Substances

Not applicable.

### 3.2. Mixtures

Pigmented, filled, PIB self-adhesive tape, supplied in roll form.

## 4. FIRST AID MEASURES

### 4.1. Description of first aid measures

#### General information

In all cases of doubt, or if symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person.

#### Inhalation:

Should not occur during normal use.

#### Ingestion:

Ingestion of sufficient quantities to induce symptoms is unlikely. Apply for medical advice. Do not induce vomiting.

#### Skin contact:

No known hazards at room temperature. If any symptoms, wash with plenty of water and consult a doctor.

#### Eye contact:

Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

### 4.2. Most important symptoms and effects, both acute and delayed

Due to concentration ingestion, skin contact, or inhalation of sufficient quantities to induce symptoms is unlikely.

#### Inhalation

No specific data.

#### Ingestion

No specific data.

#### Skin contact

No specific data.

#### Eye contact

No specific data.

### 4.3. Indication of any immediate medical attention and special treatment needed

#### Notes for the doctor

None known.

#### Specific treatments

Treat symptomatically.

## 5. FIREFIGHTING MEASURES

### 5.1. Extinguishing media

#### Suitable extinguishing media

Use an extinguishing agent suitable for the surrounding fire.

#### Unsuitable extinguishing media

None known.

### 5.2. Special hazards arising from the substance or mixture

#### Specific hazards

Avoid direct physical contact with product as it will be soft & highly adhesive due to heat. See Sections 4 "First Aid Measures" and 10 "Stability and Reactivity".

#### Hazardous combustion products

CO, CO<sub>2</sub>, smoke particles.

### 5.3. Advice for firefighters

#### Special protective equipment for firefighters

Wear self-contained breathing apparatus.

## 6. ACCIDENTAL RELEASE MEASURES

### 6.1. Personal precautions, protective equipment and emergency procedures

#### Personal precautions

No action shall be taken involving any personal risk or without suitable training. Put on appropriate personal protective equipment.

### 6.2. Environmental precautions

Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### 6.3. Methods and material for containment and cleaning up

Land spill: Sweep up spilled material and place in suitable containers for recycling or disposal. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations. See Sections "First Aid Measures" and "Stability and Reactivity".

Water spill: Stop source, if possible, to do so without hazard. Advise authorities of possible floating substances if material enters watercourses or sewers. Confine if possible. Skim from surface. Consult an expert on disposal of any recovered material and ensure conformity to local disposal regulations. See Sections "First Aid Measures" and "Stability and Reactivity".

## 6.4. Reference to other sections

Reference stated in the instructions above.

## 7. HANDLING AND STORAGE

### 7.1. Precautions for safe handling

#### Usage precautions

No special precautions are required. If surfaces become wet, it may be slippery.

#### Advice on general occupational hygiene

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See Section 8 for additional information on hygiene measures.

### 7.2. Conditions for safe storage, including any incompatibilities

#### Storage precautions

Store in a cool, well-ventilated place. Storage temperature between +5°C and +25°C. Protect material from direct sunlight and store in original packaging. Do NOT remove release liner or store cartons of product near an open flame, sources of heat or sources of ignition.

#### Storage class

Not classified.

### 7.3. Specific end use(s)

Not available

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1. Control parameters

#### Occupational exposure limits

Not applicable.

### 8.2. Exposure controls

#### Appropriate engineering controls

Provide adequate ventilation.

#### Eye/face protection

Not necessary during normal use but should be considered depending on task being performed.

#### Hand protection

Not necessary during normal use but should be considered depending on task being performed.

## Other skin and body protection

Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

## Hygiene measures

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

## Respiratory protection

Not necessary during normal use, but should be considered depending on task being performed.

## Environmental exposure controls

Not applicable.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### 9.1. Information on basic physical and chemical properties

Appearance	Semi-Solid in roll with release liner
Colour	Dark grey, black
Odour	Not applicable
Odour threshold	No information available
pH	Not available
Melting point	Not available
Initial boiling point and range	Not available
Flash point	180 °C min
Evaporation rate	No information available
Evaporation factor	No information available
Flammability (solid, gas)	Not applicable
Upper/lower flammability or explosive limits	Not available
Vapour pressure	Not available
Vapour density	Not available
Relative density	1.65-1.68g/ml
Bulk density	Not available
Solubility(ies)	Not soluble in water
Partition coefficient	Not available
Auto-ignition temperature	Not available
Decomposition Temperature	Not available
Viscosity	Not available
Explosive properties	Not available
Oxidising properties	Not available

## 9.2. Other information

Not available.

## 10. STABILITY AND REACTIVITY

### 10.1. Reactivity

No specific test data available.

### 10.2. Chemical stability

The product is stable.

### 10.3. Possibility of hazardous reactions

Under normal conditions of storage and use, hazardous reactions will not occur.

### Conditions to avoid

Open flames.

### 10.4. Incompatible materials

Strong oxidizing agents, product will be affected by organic solvents.

### 10.5. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced. Hazardous thermal decomposition products: CO, CO<sub>2</sub>, various hydrocarbons, H<sub>2</sub>S, SO<sub>x</sub> (sulfur oxides), sulfuric acid and unidentified inorganic compounds.

## 11. TOXICOLOGICAL INFORMATION

### 11.1. Information on toxicological effects

#### Acute toxicity

##### Conclusion/Summary

Based on available data, the classification criteria are not met.

#### Acute toxicity estimates

Based on available data, the classification criteria are not met.

#### Irritation/Corrosion

##### Conclusion/Summary

Skin

Low order of toxicity.

Eyes

Slightly irritating due to solid form but composition not known to injure eye tissue.

Respiratory

Based on available data, the classification criteria are not met at ambient temperatures.

Oral:

Minimal toxicity.

## **Sensitisation**

### **Conclusion/Summary**

#### **Skin**

Based on available data, the classification criteria are not met.

#### **Respiratory**

Based on available data, the classification criteria are not met.

#### **Mutagenicity**

Based on available data, the classification criteria are not met.

#### **Carcinogenicity**

Based on available data, the classification criteria are not met.

#### **Reproductive toxicity**

Based on available data, the classification criteria are not met.

#### **Teratogenicity**

### **Conclusion/Summary**

Based on available data, the classification criteria are not met.

## **Specific target organ toxicity (single exposure)**

Based on available data, the classification criteria are not met.

## **Specific target organ toxicity (repeated exposure)**

### **Aspiration hazard**

Not available

## **Information on likely routes of exposure**

Routes of entry anticipated: Oral, Dermal, Inhalation, Eyes.

## 12. ECOLOGICAL INFORMATION

### **12.1. Persistence and degradability**

Expected to be persistent.

### **12.2. Bioaccumulative potential**

Based on available data, the potential to bioaccumulate is low.

### **12.3. Mobility in soil**

Not mobile. Low solubility and sinks in water. The product is virtually insoluble in water and thus can be separated from water mechanically in suitable effluent treatment plants.

### **12.4. Results of PBT and vPvB assessment**

No information available.

## 12.5. Other adverse effects

The information given is based on data available for the material, the components of the material, and similar materials. Not expected to be harmful to aquatic organisms, not expected to demonstrate chronic toxicity to aquatic organisms.

## 13. DISPOSAL CONSIDERATIONS

### 13.1. Waste treatment methods

The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.

### 13.2. Disposal methods

The following advice only applies to the product as supplied. Combination with other materials may well indicate another route of disposal. Care should in any case be taken to ensure compliance with EC, national and local regulations. This product is suitable for disposal in an approved landfill or by controlled incineration.

### 13.3. Waste class

Not known.

## 14. TRANSPORT INFORMATION

### 14.1. UN number

Not applicable.

### 14.2. UN proper shipping name

Not applicable.

### 14.3. Transport hazard class(es)

Not applicable.

### 14.4. Packing group

Not applicable.

## 14.5. Environmental hazards

Not classified.

## 14.6. Special precautions for user

Not applicable.

## 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Not applicable.

## 15. REGULATORY INFORMATION

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Annex XIV - List of substances subject to authorisation

None of the components are listed.

Substances of very high concern

None of the components are listed.

Ozone depleting substances

Not listed.

Prior Informed Consent (PIC)

Not listed.

Persistent Organic Pollutants

Not listed.

Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

Not applicable.

Seveso Directive

This product is not controlled under the Seveso Directive.

### EU regulations

Industrial emissions (integrated pollution prevention and control) - Air

Not listed.

Industrial emissions (integrated pollution prevention and control) - Water

Not listed.

International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

Montreal Protocol

Not listed.

Stockholm Convention on Persistent Organic Pollutants

Not listed.

Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

Inventory list Australia

Not determined.

Canada  
Not determined

China  
Not determined.

Eurasian Economic Union  
Russian Federation inventory  
Not determined.

Japan inventory (CSCL)  
Not determined.

Japan inventory (ISHL)

New Zealand  
Not determined.

Philippines  
Not determined.

Republic of Korea  
Not determined.

Taiwan  
Not determined.

Thailand  
Not determined.

Turkey  
Not determined.

United States  
Not determined.

Viet Nam  
Not determined.

## 15.2. Chemical safety assessment

Not applicable.

## 16. OTHER INFORMATION

### Abbreviations and acronyms used in the safety data sheet

ADN: European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways.

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road.

ATE: Acute Toxicity Estimate.

BCF: Bioconcentration Factor.

CAS: Chemical Abstracts Service.

cATpE: Converted acute toxicity point estimate.

DNEL: Derived No Effect Level.

EC<sub>50</sub>: 50% of maximal Effective Concentration.

GHS: Globally Harmonized System.

IATA: International Air Transport Association.

IBC: International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk (International Bulk Chemical Code).

ICAO: Technical Instructions for the Safe Transport of Dangerous Goods by Air.

IMDG: International Maritime Dangerous Goods.  
LC50: Lethal Concentration to 50 % of a test population.  
LD50: Lethal Dose to 50% of a test population (Median Lethal Dose).  
LOAEC: Lowest Observed Adverse Effect Concentration.  
LOAEL: Lowest Observed Adverse Effect Level.  
LOEC: Lowest Observed Effect Concentration.  
MARPOL 73/78: International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978.  
NOAEC: No Observed Adverse Effect Concentration.  
NOAEL: No Observed Adverse Effect Level.  
NOEC: No Observed Effect Concentration.  
PBT: Persistent, Bioaccumulative and Toxic substance.  
PNEC: Predicted No Effect Concentration.  
REACH: The REACH etc. (Amendment etc.) (EU Exit) Regulations 2020 No. 1577.  
RID: European Agreement concerning the International Carriage of Dangerous Goods by Rail.  
SVHC: Substances of Very High Concern.  
vPvB: Very Persistent and Very Bioaccumulative.

#### **Classification abbreviations and acronyms**

Acute Tox. = Acute toxicity  
Aquatic Chronic = Hazardous to the aquatic environment (chronic)  
Asp. Tox. = Aspiration hazard  
Eye Dam. = Serious eye damage  
Flam. Liq. = Flammable liquid  
Repr. = Reproductive toxicity  
Skin Irrit. = Skin irritation  
Skin Sens. = Skin sensitisation  
STOT RE = Specific target organ toxicity-repeated exposure  
STOT SE = Specific target organ toxicity-single exposure
