

# B2 Building Paper

## Product Description

Traditional, non-reinforced PE coated wet-strength kraft waterproof building paper. Novia® B2 meets the technical requirements of BS 1521 (Class B without reinforcement) for building papers. It is an excellent low-cost material with good grease and solvent resistance. Novia® B2 is not suitable for permanent installations where it is required to perform any task on an ongoing basis. For permanent applications alternative materials such as Novia® A1F or Novia® Polybit building paper are available. BS1521 is a technical standard, not an application or product standard, and therefore the end user is responsible for determining the suitability for any given application.

## Features

- Coated
- Meets BS 1521 (Class B without reinforcement) requirements Class B2

## Typical Applications

- General temporary protection
- Concrete shuttering
- Floor screed break layers
- As an external cladding render backing in timber frames buildings

	Value
Standard Width	1000mm
Roll Length	100m
Roll Weight	8.5kg
Nominal Weight	85gsm
Bursting Strength	140 kN/m <sup>2</sup> BS 1521 Appx. B
Liquid water resistance minimum	3h BS1521 Appx. C
Chemical Resistance	Resistant to chemicals found in plaster and cement
Biological	Does not attract insects or vermin

Please note: The above technical information is given as a guide and is based on recent test data obtained under laboratory conditions. Materials should be fully tested by the end user to establish suitability of the product for the intended application. March 2024
