

Double-Sided Lap Tape

Product Description

Double sided tape which bonds exceptionally well with a special adhesive system. It has a polyester scrim carrier and acrylic dispersion adhesive on a silicone coated brown release paper. Novia® Double-Sided Adhesive Tape is suitable for use with Novia® Breather Membranes and should be used to seal all membrane overlaps to protect against external environmental conditions and improve airtightness. To fully complete a breather membrane seal and further reduce the air-leakage of the construction, use this tape in conjunction with Novia® Breather Membrane Lap Tape.

Features

- Temperature ranges from -30°C to +100°C
- Airtight

Typical Applications

- Use in conjunction with a breather membrane lap tape
- Overlap sealing tape
- Sealing against air and water ingress

	Value
Standard Width	50mm
Roll Length	25m
Roll Weight	0.55kg
Thickness (without liner)	0.22-0.24mm DIN EN 1942
Shear Adhesion	500g/625mm ² DIN EN1943
Peel Adhesion	≥30N/25mm DIN EN 1939**
Installation Temperature	-10°C Recommended +5 °C
Service Temperature	From -30 °C to +100 °C

** With variances

Example installation

Please note: The above technical information is given as a guide and is based on recent test data obtained under laboratory conditions. Materials should be fully tested by the end user to establish suitability of the product for the intended application. March 2024
