

Ancillary Products

Insulation Hangers

Product Description

Self-adhesive hangers for fixing insulation materials. Made from nails firmly mounted on a galvanised steel base, with a self-adhesive foam pad on the reverse. Fastening clips are supplied to fix the insulation in place.

Features

- Outstanding reliability, strength and durability
- Exceptional adhesion strength over a wide temperature range
- Highly resistant to corrosion
- Quick and easy to apply

Typical Applications

- Fixing insulation materials to smooth surfaces

Insulation Hangers	
Sizes	90mm, 110mm, 160mm 203mm
Constitution	Galvanised steel base adhered to white cross-linked closed-cell polyethylene foam with acrylic adhesive on both sides. Pin can be galvanised steel or aluminium.
Service temperature	-40°C to +80°C (+100°C for short periods)
Min. application temperature	>+5°C
Packaging	Boxes of 250no or 500no (depending on size), with washers in a separate bag
Shelf life	At least 2 years when stored indoors in a dry place between +5°C to +30°C in original unopened packaging

Please note: The above technical information is given as a guide and is based on recent test data obtained under laboratory conditions. Materials should be fully tested by the end user to establish suitability of the product for the intended application. October 2014
